SITE PLAN: In the space below show outline of lot with dimensions and identify proposed and existing drive with dimensions. Show distance of proposed drive and culvert location from property lines, right of way, water bodies or wetlands, if any. Identify street or water body on which lot fronts. If activity is in shoreland zoning, also show areas to be cleared and areas of soil disturbance including excavation, filling or grading and the distance from the water body or wetland (Shoreland Zone Permit is required)
